Address : H.no - 3/4 Govindpuram, Ghaziabad, 201002

---

### SUMMARY

With 2.5 years of hands-on experience in WordPress development and web design, I specialize in creating custom, responsive websites using PHP and modern design principles. I have a strong understanding of the WordPress ecosystem, including themes, plugins, and custom post types, enabling me to build functional and visually appealing websites tailored to client needs.

---

---

### PROFESSIONAL EXPERIENCE

#### Wordpress Developed and Website Designing, Apcomp Infotech: JUN 2022 - Present

As a WordPress Developer at Apcomp Infotech, I created custom, responsive websites using PHP and WordPress, focusing on client needs, user experience, and website optimization.

- Custom WordPress Development: Building and customizing themes, plugins, and modules to deliver unique and functional websites.
- PHP & Front-End Development: Writing efficient, clean PHP code and utilizing HTML, CSS, JavaScript, and jQuery to build interactive, high-performance web pages.
- Responsive Design: Ensuring websites are mobile-friendly, cross-browser compatible, and fully optimized for desktop and mobile users.
- UI/UX Design: Designing intuitive user interfaces that align with brand identity while ensuring an engaging and seamless user experience.
- Website Maintenance & Updates: Regularly updating websites with new features, security patches, and performance improvements.
- SEO Optimization: Implementing best practices to improve website visibility and search engine ranking.

#### Magic Software Pvt.ltd : JUN 2021 - May 2022

Website design is the process of creating visually appealing and user-friendly websites that meet specific goals. It combines aesthetics with functionality for easy navigation and optimal user experience.
